

```
1  import java.io.IOException;
2  public class ATM extends OptionMenu
3  {
4      public static void main(String args[]) throws IOException
5      {
6          OptionMenu OptionMenu=new OptionMenu();
7          OptionMenu.getLogin();
8      }
9  }
```
